

CIS

SIT Minutes

January 18, 2017

The team was given an update on status of technology switch with Grandy Primary. At this time we will be receiving one cart (28) laptops in exchange for Grandy receiving 28 of our ipads. The laptops are Chromebooks that are just like the ones in use at the high school. New ports will be installed in each classroom which will increase our WiFi connections.

The end of year academic awards were discussed for each grade level. The sixth grade will have a graduation ceremony for all students and the sixth grade band will perform. The fourth and fifth grades will have academic awards at the end of the year. Parents will receive a letter regarding this.

Field trips and end of year activities were discussed. The grade level teachers will be sending information home regarding their class field trip. Some activities discussed include Field Day, a Patriotic Program honoring those who serve or have served in the military, AR party and end of year celebrations for each grade level.

Final exams, EOG tests and dates were discussed. We need to begin getting volunteers to proctor during testing.

The next meeting is February 15.
