

SIT Meeting Minutes

December 12, 2016

The committee members discussed technology needs for this school year and the 2017-2018 school year. Internet speeds and infrastructure are being updated. Ms. Dobie is currently working on a plan to purchase Chromebooks for each grade level. Our present technology is outdated and does not adequately meet our growing needs.

The nine weeks test schedule is January 10-13 and 17-20 (for separate settings). Daily schedules were discussed. The end of the 9 weeks grading period is January 23.

Ms Chamblee, parent liason, asked how we could assist students/parents with students' assignments and projects that need to be completed on computer. Many parents either do not have internet access or are having difficulty with the technology demands. A "tech help" date for parents was suggested. This will be discussed further at our next meeting.

Staff activities update was given. All activities will take place after Christmas break.

Next meeting: January 10, 2017
